Professional Experience

Director, Incident Response - Rule4, Boulder, CO 2019 – Present

- Manage a comprehensive incident response (IR) program for clients that provides 7x24 support for IR leadership and forensics using appropriate tools and legal process (EnCase, Macquisition, Kali Linux, Tableau utilities, Nessus, Nmap, Wireshark).
- Develop comprehensive disaster recovery, business continuity, and IR plans for clients, and lead tabletop exercises/training workshops to educate key stakeholders and evaluate organizational readiness.
- Develop comprehensive Information Security programs and policies and work with executive leadership to implement in order to meet specific compliance needs (HIPAA, FedRAMP, CMMC, PCI, ISO, SEC, NIST).
- Perform comprehensive cybersecurity effectiveness studies and risk analyses that examine policy, procedure, infrastructure, and other related controls, and provide a risk/effort-based approach to mitigate gaps.
- Establish backup and restoration programs for on-premises and cloud infrastructure (Veeam, AWS, Azure, Synology, NetApp).
- Implement SIEM solutions for centralized logging (LogRhythm, Sumo Logic, CloudTrail, CloudWatch, Event Hub).
- Work with clients on system administration tasks including provisioning, endpoint management/protection, auditing and elevated account review, etc. (AWS, M365, Azure, Hyper-V, ESXi, Active Directory, Jamf, Intune, Citrix).
- Developed and launched company incentive program to allow for internal recognition and rewards (Bonusly).
- Developed utilization and busyness tracking/reporting tools and integrated into production (Python, Jenkins, Django, Slack).

Supply Chain & Enterprise Asset Management Contractor - Devon Energy, Oklahoma City, OK 2018

- Researched and developed augmented reality solutions for EAM, oil & gas exploration using Microsoft HoloLens.
- Utilized SAP as an ERP tool for asset management and plant maintenance for Devon's functional locations.

Media and Technology Contractor - Kingdom Scene, St. Louis, MO 2015 – 2017

- Managed full digital media lifecycle from ideation to public content/app release.
- Performed succession planning prior to exit and process training for incoming employees.

Small Business Owner 2011 – 2019

Architectural Planning

- Designed architectural drawings of office/warehouse properties for network of 50+ commercial real estate brokers.

Photography and Videography

- Provided wedding and engagement photography and video production, cinematography, and post-production services.

Business Team Lead - FIRST Robotics, St. Louis, MO 2010 – 2015

- Led 80+ students, developed robust business & management plans, org. structures, job descriptions, and project plans.
